### EXPERIENCE

#### Frontend Developer Intern

##### Arjun Vision Tech

06/2024 – 07/2024 · Chennai

- Built a responsive movie-listing website using HTML, CSS, JavaScript, and React, improving cross-device layout consistency and cutting mobile bounce rate by an estimated 20%.
- Integrated a third-party movie API to fetch and render real-time data (titles, posters, release dates, ratings) for 500+ movie entries.
- Collaborated with senior developers on code reviews and performance optimization, reducing average page load time by roughly 30%.
- Implemented responsive layouts and 10+ reusable UI components, cutting new-feature development time by approximately 25%.

### EDUCATION

#### Bachelor of Technology in Computer Science Engineering (Cyber Security)

##### Saveetha Engineering College

Graduated 2026 · CGPA: 7.6 / 10.0

### PROJECTS

#### Marvel Movies – Frontend Web Application

- Developed a Marvel movie discovery website that fetches and displays live data via a public API, including posters, titles, and release dates.
- Implemented search and pagination features, improving usability for browsing 1,000+ movie records.
- Built an interactive, responsive UI using HTML, CSS, and JavaScript, ensuring consistent performance across devices.

#### Botnet Detection Using Machine Learning

- Collected and preprocessed network traffic datasets to identify malicious activity patterns for a cyber security research project.
- Trained and evaluated Random Forest, SVM, and KNN classifiers using Python and Scikit-learn to detect anomalous traffic.
- Achieved high classification accuracy in distinguishing botnet traffic from legitimate network activity.

### SUMMARY

Recent Computer Science Engineering graduate (Cyber Security) with hands-on experience building responsive web applications using React, JavaScript, and Node.js. Solved 200+ data structures and algorithms problems on LeetCode and applied machine learning techniques to network security research. Seeking an entry-level software developer role.

### SKILLS

#### Programming Languages

Java C Python JavaScript  
HTML CSS

#### Web Technologies

React Node.js Tailwind CSS

#### Databases

SQL DBMS MongoDB  
Relational Database Design

#### Core CS

Data Structures & Algorithms OOP  
Machine Learning Fundamentals

#### Problem Solving

200+ LeetCode problems solved (Easy, Medium, Hard)

### CERTIFICATIONS

- Introduction to IoT – Certification
- Blockchain Process – Certification
- Runner-Up, Code Relay Coding Competition
